

## How To Measure

Wrap measuring tape around head where you wish to wear a hat. Usually this is from middle of forehead, just above ears, to fullest part at back of head. If your measurement falls in between sizes, choose the larger size.

Average headsize today, in the U.S., is 22 1/2". Most ready-to-wear hats will be sized small, medium and large, or one size fits most, whereas a custom made hat will be sized to fit.
